COMMENTS:

This Impact study is effecting our lives at this point because everything is on hold. We want to go on with our trailer park and can't do anything until you meaning D.O.E. has made a decision, and 2 more years to make a decision puts our life on hold. The Power Co. is ready to upgrade my power to handle extra usage, and the Planning Commission cant grant my special use permit. The route east of Caliente is so much better as far as staying away from Hwy 93 and the town of Caliente as a loading zone.

Please note: Your comment(s) must be received by the Department of Energy by June 1, 2004 to be considered. Comments received after the close of the comment period will be considered to the extent practicable.

If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so the address and postage-paid notice are visible, then secure with tape.

Please feel free to attach additional pages (if mailing, more postage may be needed).

We live 6 miles North of Caliente
